

Heavy Equipment™ Hammer

Now no one has to hold the chisel!

The powerful Slide Sledge® Heavy Equipment™ Hammer reduces dangerous, time consuming hammer and chisel jobs to a one-man, one-tool operation. The linear motion of Slide Sledge focuses power for precision impact to drive pins and make other tough maintenance jobs easier, faster and a whole lot safer. Reduce downtime and increase your profits.

Reduces Downtime

- Eliminates need for special equipment or additional personnel
- Delivers a powerful pay-load of impact for extreme applications
- Ideal for field maintenance and repairs

Increases Productivity

- Two person jobs can now be completed by one
- Makes repairs faster and easier

Extremely Powerful

- Effortlessly delivers over 15,000 PSI of impact force
- Use the 5 lb handle weight for additional impact
- Induction hardened, fatigue-proof steel for a long, powerful life

Safer & More Accurate

- Efficient, one person operation - no one needs to hold the chisel
- Eliminates inaccurate sledge hammer swings

Versatile

- Interchangeable, application specific tips allow one tool to do the job of many
- Quick change tips are engineered to get the job done faster and easier

Extreme Tool Technology

ERGONOMIC HANDLE
provides solid grip

FATIGUE-PROOF STEEL DRIVE BAR
induction hardened to 45HRC for a powerful pay-load of impact

Patented IMPACT DELIVERY SYSTEM
maximises power transfer to tip

SLIDE LOCK
keeps your bar in place when tool is not in use

D-HEAD DESIGN
keeps tip from rotating

QUICK CHANGE
mechanism holds tips securely in place and allows for fast tip changing

..RIGHT WHERE YOU WANT IT
