SECTION 4: First Aid Measures

4.1 Description of Necessary First Aid Measures

General Advice Avoid contact with skin and eyes. Unprotected contact may cause serious eye damage and severe skin irritation/burns.
Avoid breathing dusts.

If Inhaled For nasal irritation, remove exposed person from source of exposure to fresh air. If not breathing, clear airway and start cardiopulmonary resuscitation (CPR). Get immediate medical attention.

In case of Skin contact Immediately wash the skin with plenty of water for at least 15 minutes. Remove contaminated clothing and shoes. Wash contaminated clothing before re-use. Get medical attention. Untreated wounds from corrosion of the skin heal slowly and with difficulty.

In case of Eye contact Flush immediately with large amounts of water for at least 15 minutes. Remove contact lenses if able to do so. Eyelids should

be held away from the eyeball to ensure thorough rinsing. Get immediate medical attention. Continue rinsing eyes during transport to hospital.

If Swallowed

Do not induce vomiting unless instructed to do so by a physician. Never give anything by mouth to an unconscious person. Wash out mouth with water and give 200-300ml (half pint) of water to drink. Get immediate medical attention.
